FAQs for the Enhanced ICC-ES Evaluation Report

Why did ICC-ES decide to change the report layout?

The enhanced evaluation report is just one of the many ways we're continually improving the user experience to increase the efficiency of your product review process. This enhanced report complements the new design for the 2024 I-Codes, which is a single-column format.

What has changed in my report?

While the report will now be presented in a single-column format for improved readability and useability, all the same comprehensive technical content and important product evaluation information remains.

Has anything been removed in the report?

No. All content, diagrams, data, code references remain the same.

What makes this an enhanced report?

The most notable additions are the prominently featured product image and report holder company logo on the front page of the report. Also featured is an in-report pop-up of the detailed scope of the applicable ICC-ES Acceptance Criteria (AC). Other enhancements include improved in-report navigation where live links will take report readers to specific referenced sections of the report including supplement reports, tables and figures. Also added are external links to easily access the referenced code books.

When will my report get this update?

Reports will be updated with these enhancements on their next upcoming renewal date.

Do I have to opt-in to ensure my report gets these updates?

No. All new or renewed ICC-ES evaluation reports will be automatically upgraded upon publication/renewal.

ICC

Is there a cost for these enhancements?

No.

What are the specifications for the images I want to include in my report?

You can submit your company logo and product image to renewals@icc-es.org

Full color or black and white

Logo Image Size: 255x100 px or larger

Product Image Size: 355x275 px or larger

Resolution: 72ppi or higher

File Type: jpg or png preferred

Am I required to submit my logo or product image?

No. If you do not submit a logo or product image to use in the report, the report will still be published in the enhanced format.

I don't know if my logo or product image is the correct size. How can I check?

Share your file to renewals@icc-es.org and we can help to double check.

Logo Image Size: 255x100 px or larger

Product Image Size: 355x275 px or larger

Can I add my logo or product image after my report has been published?

No. Additions or changes to your report after it has been published will have to undergo the standard revision or renewal process.

Can I see a template of the enhanced report format?

Yes. Please contact renewals@icc-es.org to request this.

Where can I find my enhanced report once published?

All ICC-ES reports will still be available on our website directory for code officials, specifiers, and other interested parties to access. Report holders also receive a PDF of the report with the publication email notification.
